A photograph of two young women standing in a grassy field with yellow wildflowers. The woman on the left is wearing a light blue dress and the woman on the right is wearing a pink dress. They are both smiling and hugging each other. The background is a soft-focus forest.

Frosting Company® was started by two sisters Gabrielle and Brittney. They were inspired to start the Frosting Company® because in 2008 Gabrielle was diagnosed with cancer. Gabrielle endured over two and half years of chemotherapy treatments and is officially cancer free.. Because of Gabrielle's diagnosis the two sister became aware of the harmful chemicals and toxins in many of the beauty products they were using. With their passion and love for natural products the girls decided to create their own line of artisan products that are free of gluten, parabens, sulfates, phthalates and artificial preservatives. Their delectable hand crafted line is never tested on animals.

# Giving Back!

---

Giving back is really important to Gabrielle & Brittney. In 2011 they started a program where they bring celebrities to visit sick children in hospitals. Gabrielle being a cancer survivor knows what it is like to be admitted into the hospital for a long period of time and wanted to make children's days in the hospital a little brighter.

"It makes you look at the hospital differently," says Gabrielle. "You don't think about your surgeries or your medicine or how you feel. You think about how awesome it is that you're going to meet this big star—and you wonder if maybe you'll get to meet another star the next time you're in the hospital."

"Everyone gets excited," Brittney says. "The patients, their parents—even the nurses are filled with excitement."

The sisters have personally worked with...

- Olivia Holt
- Nick Jonas
- Miranda Cosgrove
- David Cook
- Daughtry
- SafetySuit
- Ryan Beatty
- Cody Simpson
- Midnight Red
- Bridget Mendler
